methods that could be followed. Also there are groups of people who talk about the benefits of yoga, mantra, yantra and allied topics, each of which has a scientific logic as is the case with the manuscripts left behind by the Rishis. As we all are aware, there are planets which by their interaction, govern our destiny. My belief, developed during the study of this science, is that destiny depends on four major things in equal proportion. These are; our previous karma, the place where we are staying, the people with whom we interact and our own efforts. These are the four parameters and within each comes the important of a large gamut of activities. There is a complex equation that is a matter of study and research which, like any other science, gets deciphered and known. I therefore believe that chart at the time of birth, coupled with the year's horoscope and the time at which the query is being asked, have to be co-

related and a vector from them gives the correct analysis of the query. Similarly, as each planet is associated with a colour and the colours are in turn related to vibrations – a complex phenomenon by itself; the various mantras, colour therapy and other remedies have relevance.

**Aspects in Vedic Astrology** Gopesh Kumar Ojha 2002-10 Through astrologers are well aware that it is the aspects between planets which has been planets which add detail and definition to a birth chart, there has been no single work which deals comprehensively with the theory and delineation of aspects in Vedic Astrology. This book fills a void by providing a clear and concise treatment of the subject. The authors have drawn their material from the ancient and medieval classics of Vedic astrology, preserving the wisdom of the sages as well as granting their readers a wealth of insight into how the ancient

dictums may be applied to contemporary life.

Political Theory Eddy Asirvatham | KK Misra 1995 This text is a classic in Indian political literature as the original author belongs to the Idealist school of great political thinkers such as T H Green and Bosanquet. It is a comprehensive treatise on basic structure of established political theories, be it Bosanquet's idealistic theory of the State to liberal and anti-idealist view, as expressed by L T Hobhouse, to the Marxian theory of the State. The textbook follows an ideological approach where it rejects the attitude of those behaviouralists who place undue emphasis on methods, techniques and skills rather than on first principles and value judgements. It is developed for the undergraduate students of Political Science (Pass and honours courses). Aspirants of various competitive examinations such as Civil Services

Examination and state public service commission examinations will also find the book extremely useful.

In Dasha analysis this chart is important. All these have been explained with number of example charts.

**Delineating a Horoscope** Raj Kumar Astrology is a great science based on sound principles and theory of karma through cycles of rebirth. A horoscope is basically a map of zodiac indicating position of planets in various signs/ Nakshatra at the time and place of birth. The delineation of a chart is

the science and art of deciphering it as per the knowledge, intuition of the astrologer and divine help available to him. Therefore the first requisite is to have sound knowledge of nature and characteristics of houses, signs, Nakshatra and planets and their inter-relation. Next comes the basic tools like dasha, transit, yoga and divisional chart and their application in delineating a horoscope. Lagna is the single most important factor in delineating a horoscope. It is the very being of the native, his élan vital & basic potential. Unless the seed of a specific quality or event is contained in this basic potential, other planetary indications will not find suitable opportunities for manifestation. Lagna also determines the numbering of houses with lagna being the first. With the change in lagna, the significations of any planet will change drastically, as his house & lordship changes, although the sign & constellation

of the planet remain unchanged.

*Your Healing Stars* Radhe 2016-05-12  
*Your Healing Stars: Volume I* is the foundation for *Your Healing Stars: Volume II*, *The Integration of Ayurveda and Vedic Astrology*, written by the same author. In this book, the layout of the birth chart is rendered and essential graha (planet), rashi (constellation) and bhava (house) characteristics are explained. A special chapter on advanced bhava meanings provides an in-depth examination of the 12 bhavas and presents the concept of bhavat bhavam (bhava from bhava) and bhava reflection. Included are beautiful illustrations of the 9 planetary deities and the 27 ruling godheads of the lunar nakshatras. Volume I also incorporates more advanced topics, including a comprehensive discussion of graha

condition, important yogas and various confluence techniques. One of the greatest gifts of Vedic Astrology is its many predictive systems. Popular timing techniques explained in this volume include the Vimshottari system of dashas and bhuktis and Gochara (planetary transits). When the birth chart shows a potential for certain events and experiences to occur, then dashas-bhuktis and transits serve as astrological timing triggers that "ripen" the particular event and produce life-changing events, such as a marriage, the birth of a child, a new career path or severe illness. To make accurate predictions, we have to marry the static nature of the Vedic birth chart with dynamic timing triggers. Lastly, the biggest stumbling block for students of Vedic Astrology is where to begin the birth chart interpretation process. Without a sensible process for chart interpretation, we find our eyes gazing hopelessly at varied

planetary configurations, wondering how to integrate and summarize our findings into a message that is insightful and constructive to the client. Volume I offers a comprehensive methodology developed and used successfully by the author. It incorporates the techniques and concepts presented in this book.

*The Key of Life* Prash Trivedi 2003 Dr. David Frawley, the well known Vedic scholar, writes of Mr. Trivedi - "India's most insightful young astrologer offers what is probably the longest, most researched and most original book on the Lunar Nodes published in modern times. This book is worthy of serious examination by all students of Astrology and all those interested in the great mysteries of life, death, karma and transformation."

In the 15 years since the original version was published, the world has shrunk and computer software has dramatically improved. It is now easier than ever to access astro-mapping software and so quite literally seek out the best places for holiday, work, relationships - you name it. This revised edition includes the fascinating case histories of Edward Snowden and Ronnie Biggs, and it is also organised in a more reader-friendly format. **Mayamatam (2 Volumes)** Bruno Dagens 2010-01-01 The Matamata is a Vastusastra, i.e. a treatise on dwelling, and as such, it deals with all the facets of gods' and men's dwellings, from the choice of the site to the iconography of the temple walls. It contains numerous and precise descriptions of villages and towns as well as of the temples, houses, mansions and palaces. It gives indications for the selection of proper orientation, right dimensions, and

appropriate materials. It intends to be a manual for the architect and a guidebook for the layman. Well thought of by traditional architects (sthapati-s) of South India, the treatise is of great interest at a time when technical traditions, in all fields, are being scrutinized for their possible modern application. The present bilingual edition prepared by Dr Bruno Dagens contains critically edited Sanskrit text which is an improvement over the earlier edition by the same scholar and published as No.40 of Publications de L'Institut Francaisd' Indologie, Pondicherry. The English translation, also published earlier, has now been revised with copious notes. The usefulness of the edition has been further enhanced by adding an analytical table of contents and a comprehensive glossary. In the series of Kalamulasastra early texts on music, namely, Matralaksanam, Dattilam and Brhaddest,

have been published. The medieval texts on music, especially, the Sribastamuktavali (No.3 in the series) and the Nartananirnaya (No.17 in the series), bring us up to the 15th and 16th centuries. In the case of architecture, despite the IGNCA's endeavour to publish portions of the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana, first, this has not been possible. Instead, our scholars were able to complete work first on a late but important text, namely, Silparatnakosa. We hope that the sections on architecture in the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana which predate the medieval texts, will be published soon, along with revised and re-edited texts of Manasollasa and Aparajitaprcha. The Mayamatam is the fourteenth and fifteenth volumes in the Kalamulasastra series of the Indira Gandhi National Centre for the Arts (IGNCA).

**The Great Indian Love Story** Ira Trivedi

2009-09-10 A darkly fascinating snapshot of the glittering and brittle lives of the rich and famous of Delhi, its glamorous page 3

swish-set The Great Indian Love Story is set in a world where appearances mean everything and nothing is as it seems. There's no time for love in a world that revolves around the latest Ferraris, the hottest nightclubs, diamonds, single malts, cocaine and ecstasy. In this whirl of wild parties, sex and drugs we meet Serena Sharma who lives her life one debauched night at a time, always falling for the wrong men. Her life is a roller-coaster ride: her father's death followed by her mother's remarriage, a broken heart and a lost love. Adding to this is her torrid affair with Amar Khanna—a trophy husband, coke addict and serial adulterer. Riya, jaded by her unsuccessful attempt to find a job in America, returns to Delhi to find the city of her childhood changed beyond recognition. Striking an unlikely friendship with Serena, Riya finds her complacent torpor shattered. The Great Indian Love Story is also the

story of Parmeet, Serena's mother, who looks for passion outside her marriage with disastrous consequences, and S.P. Sharma, Parmeet's husband, who is driven to violence by her infidelity. Ira Trivedi weaves together sex, revenge, glitz, friendship and a chilling murder to create a potent cocktail in this gripping novel on the perfidious nature of love and power.

is a great resource for any Vedic astrologer who is truly interested in understanding the mythology behind the Nakshatras. It is a scholarly work that deserves a place on every Jyotishi's bookshelf!" James Kelleher "This book is an extraordinary labor of love birthed after a decade-long gestation period. I have not encountered any other work on nakshatras deities that has been so thoroughly researched and has woven together the Vedic and Puranic references into a coherent thesis. The attention to detail is astounding as is the dedication to faithful transliteration of the Sanskrit and the care given to cite the original sources. It is a serious work that will greatly facilitate further research and inquiry on the part of lovers of the Vedic tradition."

**Planetary Transit** Shanker Adawal

Transits are one of the main means used in

horoscope reading. They are used to forecast future trend and developments. Astrological transit is about interpreting the ongoing movement of the planets as they transit the horoscope. These transits are studied in the Natal Charts to tell about the timing or fructification of the events. In this book the initial chapters deal with the basic understanding of the meaning of Transit, the rules to be applied and about the planets. We have also dealt with the rules to be applied in predicting the result of transiting planets. Basic Transit Rules of planets in Houses, Signs, Nakshatra and Divisional Charts is explained at length. The book then dwells in factors that modify the results of a Transit. It then goes into explaining the impact of the transiting inner planets. I have also gone in details explaining the impact of Jupiter, Saturn, Nodes and Mars in Transit with various permutation and combination.

Tirupur S.GopalaKrishnan(GK) 2019-06-18  
It is a simple method for prediction through which, even a person with a basic knowledge of astrology can give predictions

based on the birth chart. The method utilizes the degrees of the planets in the birth chart .The planets in the highest degree and lowest degree are taken into account. Even planets which are 6/8 positions away from each other, will be combined when their degrees are close. Through this method we can predict whose relationship will be beneficial for him/her. We can also predict the planets which will support him though out his/her life, the gods whom should be worship and so on. Predictions together with the planets in the transit and the birth chart are also easily given.

**Light on Life** Hart De Fouw 2003 Light on Life: An Introduction to the Astrology of India Light on Life brings the insight and wisdom of Indian astrology to the Western reader. Jyotish, or Indian astrology, is an ancient and complex method of exploring the nature of time and space and its effect upon the individual. Formerly a closed book to the West, the subject has now been clarified and explained by Hart de Fouw and Dr. Robert Svoboda, two experts and long-term practitioners. In Light on Life they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology.

Nakṣatra Sūtra is a treasure found in the Taittirīya Brāhmaṇa, a branch of the ancient Yajur Veda. Because of this, it holds unique importance and unparalleled authority among nakṣatra texts, for it allows us to understand the nakṣatras in much clearer accord with the Vedic sages who originally envisioned them. I also supplement the book with other sections from the Taittirīya Brāhmaṇa that also talk about the nakṣatras, and with a section entitled, The True Story of the Nakṣatra Gods: a dramatic narration of the 27 nakṣatra divinities, focused on what is most relevant to their nakṣatra's symbolism. This original work pulls together diverse Purāṇic and Vedic source material to paint a vivid picture of often unknown tales and details essential for fully understanding the subtleties of the 27 Vedic stars.

Foretelling Widowhood Mṛdulā Trivedī 2008 Foretelling Widowhood is the fruit of research work carried out by us during the last two decades. A work of predictive astrology, it amalgamates a plethora of principles enshrined in various classical texts and practical study of birth charts of

those who have been unfortunate enough to suffer the immeasurable grief and plight of untimely widowhood. Untimely widowhood is the biggest tragedy that can befall a woman and is irreversible. In olden days, widowhood in general and untimely widowhood in particular was considered an unpardonable sin and a woman had to commit Sati, that is to mount the pyre of her late husband. Was not this inhuman? Women would be ever grateful to Raja Ram Mohan Rai whose untiring efforts led to rooting out of this obnoxious practice. A common belief among masses, as also amongst self-styled astrologers, is that mangati females or those females having kuja dosa in their birth charts are predisposed to suffer widowhood. We would like to humbly opine that this belief is only partially correct. It is not certain that females having kuja dosa will essentially undergo the miseries of marital disaster

such as widowhood. Many females, who suffered untimely widowhood, were not mangati either from ascendant, or from Moon or from Venus. This is definitely a wrong concept that widowhood will curse only a mangati female. In fact, much is not known about the kuja dosa and its actual

effect.
