**Adventures With the Wife in Space**  
Neil Perryman 2013-10-31 'One of the oddities of Doctor Who is that you hear so much about what the fans think, and so little from the other 100 percent of the audience (my stats are clinically accurate.) So thank God for a couple who put their love on the line to set the record straight. This is the story of a fan boy who inflicts every episode ever made of Doctor Who on his marriage. Or to put it another way, this is the story of someone with a proper love and understanding of Doctor Who, trying to explain it to her husband.' Steven Moffat Neil loves Sue. He also loves Doctor Who. But can he bring his two great loves together? In January 2011, Neil Perryman set out on an insane quest to make his wife Sue watch every episode of the classic series of Doctor Who from the very beginning. Even the ones that didn't exist any more. And so, over the next two and half years, Sue gamely watched them all. From William Hartnell and Tom Baker to Peter Davison and Paul McGann, the result was a wildly successful and hilariously revealing blog called Adventures with the Wife in Space. But the adventure continues. Here Neil Perryman tells the all too true story of Doctor Who fandom. Funny, honest and surprisingly brave, he

also captures perfectly the joys - and fears - of sharing the thing you love with the people you love.

Adventures With the Wife in Space is, at its heart, the story of Doctor Who, and its fans, seen through the eyes of two people - one who knows almost nothing about the programme and another who knows way too much. 'This is a very, very funny book; touching too.' Jenny Colgan

The Doctor is many things - curious, funny, brave, protective of her friends...and a shameless namedropper. While she and her companions battled aliens and travelled across the universe, the Doctor hinted at a host of previous,

untold adventures with the great and the good: we discovered she got her sunglasses from Pythagoras (or was it Audrey Hepburn?); lent a mobile phone to Elvis; had an encounter with Amelia Earhart where she discovered that a pencil-thick spider web can stop a plane; had a 'wet weekend' with Harry Houdini, learning how to escape from chains underwater; and more. In this collection of new stories, *Star Tales* takes you on a rip-roaring ride through history, from 500BC to the swinging 60s, going deeper into the Doctor's notorious name-dropping and revealing the truth behind these anecdotes.

*Reading between Designs* Piers D. Britton 2010-01-01 From the alien worlds of *Star Trek* to the realistic operating room of *ER*, the design of sets and costumes contributes not only to the look and mood of television shows, but even more importantly to the creation of memorable characters. Yet, until now, this crucial aspect of television creativity has received little critical attention, despite the ongoing interest in production design within the closely allied discipline of film studies. In this book, Piers Britton and Simon Barker offer a first analytical study of scenic and costume design for television drama series. They focus on three enduringly popular series of the 1960s—*The Avengers*, *The Prisoner*, and *Doctor Who*—and discuss such topics as the sartorial image of Steed in *The Avengers*, the juxtaposition of picturesque and fascistic architecture in *The Prisoner*, and the evolution of the high-tech interior of *Doctor Who*'s TARDIS. Interviews with the series' original designers and reproductions of their original drawings complement the authors' analysis, which sheds new light on a variety of issues, from the discourse of fashion to that of the heritage industry, notions of "Pop" and retro, and the cultural preoccupation with realism and virtual reality.
